Proclamation

October 10th is National Dental Care Day

October 10th is National Dental Care Day here in Canada – a public awareness initiative dedicated to promoting oral health education, preventative care, and equitable access to oral healthcare services, particularly for underserved and vulnerable populations.

Oral health is an essential component of overall health and well-being, and access to preventative dental care and oral health education contributes to healthier individuals, families and communities.

This initiative recognizes the valuable contributions of dentists, dental hygienists, dental assistants, educators, volunteers, and community organizations that work to improve oral healthcare outcomes and support healthier communities.

Increasing awareness about preventative dental care, oral hygiene, and early intervention can help improve long-term health outcomes, reduce barriers to care, and strengthen public health and community wellness initiatives.

National Dental Care Day has been recognized within Ontario's dental community through public awareness, and access-to-care initiatives supporting healthier communities across the province.

The Council of the Township of Stirling-Rawdon hereby proclaims October 10, 2026 as National Dental Care Day.

Bob Mullin

Mayor
